SUBJECT: Valet Parking Proposal

EXPLANATION: On April 9, 2010, the Town Commission received a request (**Exhibit 1**) from the three downtown businesses, 101 Ocean, The Village Grille, and Athena-by-the-Sea for a 90-day trial valet operation using the public-right-of-way (ROW) to transfer vehicles. A picture of the proposed area is attached (**Exhibit 2**). **Exhibits 3 and 4** are pictures of El Mar Drive, south and north of Commercial, respectfully.

The subject of a valet using a public street for their transfer point has been discussed by the Town Commission several times before. A review of the department's file includes a 2007 request and a 2009 draft amendment to the Code to regulate the use of the ROW.

Our first research stop was Google ("valet on public property"), which produced 149,000 results. After reviewing a small sample of code provisions from other cities, it is evident that many cities, large and small, allow valet operations in the ROW, especial in downtown districts.

A harder question is how many cities do not allow valet to use the ROW and why. We are doing some research locally to provide the Commission some additional data. The lack of a code requirement to allow valet in the ROW may just mean that it is not an issue for that community because they do not have an active downtown with limited parking. One would not expect the City of Weston or Parkland, for example, to have such a code provision.

The Specific Trial Proposal

The proposal identifies the vehicle transfer location to be the two public metered parking spaces in front of the Country Ham and Eggs restaurant. All vehicles would be parked on private property.

On May 17, 2010, staff held a meeting at Jarvis Hall to discuss the proposal with the applicants and other interested individual. Approximately 14 people attended including the Interim Town Manager, Interim Assistant Manager and the Development Services Director. During that meeting, the following alternative transfer points were discussed.

1. El Mar south of Commercial. We evaluated the southbound and northbound ROW.
2. El Mar north of Commercial – in the section with four lanes just north of the alley. Valet operation from the lane next to the median.
3. The Pier Parking Lot – with the access to the alley being open.
4. The Town Parking lot on El Mar just north of the Ham and Egg restaurant.
5. Commercial just west of Aruba and next to The Village Grille.

After the meeting, staff conducted on-site evaluations of each site and found the alternative locations to be inferior to the proposed location, or, in the case of Alternative 3, not on public property. We are prepared to explain our findings if the Commission desires specifics.

STAFF RECOMMENDATION:

We believe a valet operation can be successfully and safely operated in the ROW and would offer downtown patrons an additional parking option. If the Commission is inclined to allow valet in the ROW, we recommend the Commission schedule this item for its meeting of June 22, 2010 at which time it can take the following action:

1. Approve a 90-day trial period (without the applicant's free parking for residential permits), and
2. Direct staff to:
 - a. Establish rules of operations. (Such as no blocking of the alley next to Ham and Egg or the egresses to the Town parking lot, location of stacking lane, and "Town Valet" not to be used on signage or in marketing.)
 - b. Prepare an evaluation report at the end of 60-days that includes comments and observations from businesses in the area and users of the service. Schedule the report for Commission discussion.
 - c. Evaluate the 2009 draft amendment to the Code authorizing valet in the ROW and provide recommendations.

BOARD/COMMITTEE RECOMMENDATION: N/A

FISCAL IMPACT AND APPROPRIATION OF FUNDS: The applicants would bear all cost of the trial period.
